Eastern Serengeti Ecosystem

As you get to know this special place, you will probably come across a half-mile long creekbed lined by whistling thorn trees and umbrella acacias. The trickling seasonal stream is a humble, yet incredibly important part of this ecosystem and represents the spirit of symbiosis that makes this place so unique. Thomson Safaris works alongside the Maasai to conserve a vast pristine wilderness of wooded savannah and open grassland covering 12,600 acres within the Serengeti ecosystem.

Habitats are being restored. Wildlife is being given greater refuge. Communities are becoming empowered through education, involvement, and direct benefits from tourism. It is becoming a place of happiness and harmony between wildlife preservation and community-based tourism that will one day be a model for similar efforts. During your stay at the refuge, you will have many opportunities to explore the wilderness and the culture of the Maasai.

☘ Morning Hike in the Eastern Serengeti Ecosystem

Head out on a light hike this morning. The terrain will be fairly mild, but make sure that you have comfortable shoes with good traction. Being out on the plains on foot at this time of day is magical.

☘ Lunch at Your Camp

Sit down to a delicious home-cooked lunch with amazing views.

☘ Afternoon Wildlife Viewing in the Eastern Serengeti Ecosystem

Enjoy wildlife viewing this afternoon in the Eastern Serengeti Ecosystem. Be on the lookout for rarer species, such as the bat-eared fox and the smaller animals that are sometimes overlooked, such as the mongoose, hyrax, dik dik, and klipspringer.

☘ Optional Night Wildlife Drive

You'll have the option to take to the plains and wilds after dark for a night drive in the Eastern Serengeti Ecosystem. Night drives offer thrills and possible sightings of nocturnal creatures, such as spring hares, aardvarks, and porcupines. Eastern Serengeti Ecosystem to Serengeti National Park

Head west toward the Serengeti on a rugged road that cuts through a landscape riddled with craggy hills and thickly wooded gullies. Maasai bomas appear seemingly out of nowhere. The rough road to Klein's Gate takes you along the Grumeti River, which serves as one of the Serengeti's two main water sources as it flows from one end of the park to the other before emptying into Lake Victoria. At the gate, you enter the Serengeti along its northeast border; the Maasai Mara Game Reserve and Kenyan border are less than 15 miles to the north. From there, traverse over the Serengeti's acacia-covered northern corridor with wildlife viewing along the way.

☛ **Boxed Lunch en Route**

☛ **Afternoon Wildlife Viewing in the Serengeti**

Spend an afternoon wildlife viewing in the Serengeti. The big cats often spend these hours lying drowsily about the plains and up in the trees while many antelope and other animals continue to graze.

☛ **Wildlife Viewing En Route to Your Nyumba**

Enjoy the journey to your next Nyumba camp, as there will be plenty to see along the way. Perhaps you will come across a chase between predator and prey; maybe you will spot a wake of vultures; or maybe you will be lucky enough to find a leopard relaxing high in the limbs of an acacia tree.

☛ **Watch the Sun Set Over the Serengeti Plains**

As the sun sinks below the horizon, soak in the colorful sky as you reflect on the day's adventures.

Serengeti National Park

The Serengeti, Tanzania's second largest national park, covers nearly 6,000 square miles of grassland plains, savannah, kopjes, hills, woodlands, and riverine forests. The Grumeti, Mbalageti, and Mara river systems serve as critical water sources and are often excellent sites for wildlife viewing. Beyond the heralded migration of wildebeest and zebra, the Serengeti is best known for its big predators, including cheetah and leopard, as well as large prides of lions and clans of hyenas. Other commonly seen animals include gazelle, buffalo, giraffe, topi, hartebeest, ostrich, and jackal, but it is the full diversity of wildlife and habitats that you will truly find amazing. The greater Serengeti ecosystem actually covers the Ngorongoro Conservation Area, the Maasai Mara in Kenya, and numerous surrounding wildlife-protected lands that combine for a total of almost 17,000 square miles, which is larger than the states of Massachusetts, Connecticut, and Rhode Island all together.

☘ Spend the Day Seeking Out the Great Migration

Embark on a full-day excursion into the Serengeti plains. Your expert guide will seek out the unique and diverse flora and fauna of the Serengeti, including the iconic herds of wildebeest and zebra as they migrate across Tanzania.

☘ Bush Lunch

Enjoy a bush lunch in the Serengeti.

☘ Continue Your Exploration of the Serengeti

Explore the pristine landscapes of the Serengeti with your guide's uncanny wildlife spotting instincts leading the way. Expansive plains, rolling hills, dramatic granite outcrops and riverine valleys are home to an endless variety of fascinating creatures, from the lowly dung beetle to the impressive elephant.

☘ After-Dinner Campfire

Head to the campfire to swap the best adventures and photos from your day with your fellow travelers.

Serengeti National Park

What is the story behind the Big Five? It actually has nothing to do with the size of the animals. In the 1800s, colonial trophy hunters named buffalo, rhino, elephant, lion, and leopard as the most difficult animals to hunt on foot. Thus, they were named the Big Five. Years later, tourism companies adopted the term and the list became the so-called five must-see animals while on safari. While it is possible to spot all the listed animals on your trip, leopard and rhino sometimes prove difficult to track down as they are both solitary, reclusive species. Ultimately, however, wildlife viewing in the Serengeti will be nothing short of amazing.

☘ Full Day of Wildlife Viewing in the Serengeti

Go on a wildlife viewing drive in the Serengeti for a full day. Your expert guide will point out wildlife that few others could hope to spot, whether a leopard well-concealed in the trees or a lion deep in the savanna grasses.

☘ Picnic Lunch

Enjoy your lunch outdoors in a scenic spot.

☘ Continue Wildlife Viewing in the Serengeti

Spend more time seeking out wildlife and exploring the Serengeti's rich landscapes. The so-called Big Five and the Great Migration are the most well-known of the Serengeti's offerings, but there is much more to see. Thousands of equally fascinating dramas of a smaller scale play themselves out on these endless plains.

☘ Relax at Your Nyumba

Once you return from wildlife viewing, take time to sit by the fire and relax. Exchange stories of the day, write in your journals or simply enjoy the fresh evening breeze.

Serengeti National Park

The most social of the big cats, lions live in groups called prides, comprised mostly of females and cubs and only 1-2 adult males. Typically prides have 6-12 lions, but can sometimes have more than 30 members. Superior hunters, lionesses inherit the same territories as their mothers while young males roam until they drive out old males from other prides to take over leadership. As lionesses hunt in groups and often at night, you are more likely to see prides as they languidly stretch out in the brush, underneath an acacia tree, or in the shade of a large rock formation. Particularly in the Serengeti, males who reside around savannahs and plains develop large dark manes as they grow older. The lion's roar, a familiar sound in the Serengeti at night, can be heard from over five miles away.

☘ **Optional Serengeti Balloon Excursion**

Those with advance reservations will have the opportunity to balloon across the plains during one of your mornings in the Serengeti. A pre-dawn wake-up call leaves you time to drive to the balloon launch site in order to catch the most dramatic light. Then take to the skies just as the sun rises. Glide over the plains and acacia treetops, taking in spectacular views of the Seronera River Valley and the surrounding plains. After your descent, enjoy a magnificent champagne breakfast right in the midst of the Serengeti wilderness.

☘ **Morning Wildlife Viewing in the Serengeti**

There is nothing as marvelous as traversing the plains of the Serengeti just after dawn and through the morning hours. Look for herds of wildebeest, zebra, giraffe, impala, eland, topi, and more out on the savanna.

☘ **Lunch at Your Lodge**

☘ **Continue Wildlife Viewing in the Serengeti**

Spend more time seeking out wildlife and exploring the Serengeti's rich landscapes. The so-called Big Five and the Great Migration are the most well-known of the Serengeti's offerings, but there is much more to see. Thousands of equally fascinating dramas of a smaller scale play themselves out on these endless plains.

☘ **Stargazing**

Don't forget to look up! You won't need a telescope to see the bright constellations in Tanzania's pristine night sky.

Visit the Ngorongoro Crater, where you are likely to find an abundance of wildlife. With luck, you might even see rhinoceros and big cats, such as lion and cheetah. 🌀 Gibb's Farm Tembo Fire

This evening, relax at the Tembo Fire, an open-air sitting area nestled at the foot of the organic gardens. The tradition of the nightly campfire began as a purely practical measure to ensure that elephants - or "tembo" in Swahili - are not tempted to feast in the organic gardens at night. It soon became a popular place to sit and relax at the end of the day. Now, with a comfortable seating area and full bar, the Tembo Fire makes a wonderful place for conversation, story-telling or star-gazing.

You can also walk through the famed coffee bean fields that gave the farm its start over 80 years ago.
